

## **Transportation Permits Management System (TPMS) Overview**

The Transportation Permits Management System (TPMS) is a computer system that will eliminate human errors in the transportation permit process. It will also allow transportation permits applicants to apply for, receive, and pay for permits through the Internet. If you would like to know more about TPMS, please click on the links below:

**Background and Business Problems** – This section describes the reasons why Caltrans is undertaking this projects.

**Objectives** – This section describes the objectives of TPMS.

**Business and Technical Requirements** – This section contains detailed descriptions of each business and technical requirement of TPMS (total of 136). The chosen vendor (Bentley Systems, Inc.) must meet each requirement to successfully complete the project.

**Benefits** – When successfully completed, TPMS will achieve these benefits.
